

North Carolina Wesleyan College seeks applications for an Assistant Professor of Biology to teach introductory courses for both majors and non-majors; Human Anatomy and Physiology; and core and upper-level courses for the biology and biomedical science majors. This is a full-time, tenure track position to begin August 2021. North Carolina Wesleyan College, an undergraduate liberal arts college, emphasizing teaching excellence and personal attention, is located in eastern North Carolina and serves approximately 1,700 students of various backgrounds and academic preparedness, including adult degree students in the evening college.

Requirements:

- A Ph.D. in a biological discipline
- Love for teaching – the successful candidate is expected to engage traditional students through the use of both conventional and innovative instructional strategies. Primary teaching duties will be BIO 101 – Life Science; BIO 102 – Life Science Laboratory; BIO 231 - Anatomy and Physiology 1; BIO 232 – Anatomy and Physiology 2; additional core and upper-level biology courses in area of expertise
- Desire to help students learn life science and basic biology which may require time outside the traditional course meeting time with individual students
- A team player – the successful candidate will work well with the other biologists to move the department forward and help grow the program
- Advising and committee work – all faculty are expected to serve on standing committees and serve as advisors for our majors
- Commitment to the College and success of the students – the successful candidate will have a desire to support the aims of the college and support students in various capacities (like through attending student presentations, guiding independent student research projects, volunteering for open houses, etc.)
- A fulltime load at North Carolina Wesleyan College involves 12 contact hours per semester consisting of a mixture of lecture and laboratory courses.

The college is located in Rocky Mount, North Carolina, and serves approximately 1,700 students, including adult and professional students in the evening and online. The student body is diverse with regard to ethnicity, nationality, and age. In addition to teaching in the traditional day program, biology faculty serve adult and professional students and employ innovative teaching approaches and personal attention.

Rocky Mount is in the eastern coastal plain region of the state, convenient to the Raleigh-Durham area and beaches, including the Outer Banks. Washington, DC and the mountains of North Carolina are also within easy driving distance.

North Carolina Wesleyan College values a culture of [respect, kindness, and understanding](#) and does not discriminate based on race, religion, color, national origin, sex, age, marital status, sexual orientation, or disability. Women, historically underrepresented minorities, and individuals with disabilities are encouraged to apply.

Review of applications will begin immediately and will continue until a suitable candidate is identified. Specific questions about the position or the Biology Department can be directed to Dr. John Temple, Chair of the Search Committee, at jgtemple@ncwc.edu.

Initial applications should include: letter of application, curriculum vitae, teaching statement, copies of transcripts showing academic work in higher education and degrees received, and three letters of recommendation addressing academic qualifications and teaching excellence. Please direct a complete set of application materials to Tammy Harrell, Manager of Faculty Records and Academic Projects, at tharrell@ncwc.edu, or via mail to: Tammy Harrell, c/o Office of the Provost, North Carolina Wesleyan College, 3400 N. Wesleyan Blvd., Rocky Mount, NC 27804. Review of applications will begin immediately and will continue until a suitable candidate is identified.

North Carolina Wesleyan College is an equal opportunity employer; however, the college does not currently sponsor H-1B/H-1B1 petitions/visas for openings in this position. Therefore, only candidates who are already legally authorized to work in the United States will be considered.
