

## Wesleyan College invites applications for a full time, tenure track Assistant Professor of Biology, with teaching duties starting August 1, 2024.

Qualifications include a Ph.D. in animal physiology or an allied discipline, excellent communication skills, and a history of strong commitment to undergraduate instruction and research. The successful candidate will have experience with courses that support majors in Biology and Neuroscience, especially animal physiology, vertebrate zoology, and neurophysiology; the candidate will also participate in teaching introductory biology courses. Candidates who have experience working with undergraduates using innovative course delivery methods are highly desired.

Wesleyan seeks faculty committed to helping students “Find Their Voice” in an interdependent world; significant preference will be given to candidates who have demonstrated excellence in, and enthusiasm for, teaching biology to diverse populations of students. This position requires a professional who is eager to take a leading role in promoting and guiding student research in biology and neuroscience, advising students, and participating in Natural Science and Mathematics Division activities. All full-time faculty at Wesleyan College are expected to engage in scholarship and service to the college. *Faculty rank and time towards tenure are negotiable for exceptional candidates. ABD candidates will be considered.*

[Wesleyan College](#), a four-year national liberal arts college for women founded in 1836, is a leader and innovator in women’s education. Wesleyan’s academically challenging, inclusive environment helps prepare women to live purposeful and connected lives. A strength of this small liberal arts college is our diverse student population and our commitment to liberal arts and justice throughout our curriculum. Faculty are known for their commitment to teaching, diversity, and community; biology faculty demonstrate their support for increasing diversity in the sciences through intentional teaching, mentorship and research opportunities. Wesleyan’s [Munroe Science Center](#) is an outstanding facility that provides modern research and teaching spaces; a dedicated laboratory for the successful candidate’s research is available.
